
CHUN-YU LEE *Chun-Yu, Lee*

Supply Chain Specialist

Düsseldorf, Germany

(+49) 17657891107 | leealan1998@gmail.com

PROFESSIONAL SUMMARY

Supply chain professional with hands-on experience in inventory management, supply/demand planning, and cross-functional execution across European markets

EDUCATION

Technical University of Munich | M.S. Management and Technology

Munich, Germany | April 2022 - October 2024

- Major in Operations and Supply Chain Management
- Minor in Computer Engineering
- Master's thesis focused on optimization modeling for production planning in manufacturing and remanufacturing systems, applying operations research techniques to improve cost and production decisions under demand uncertainty

National Tsing Hua University | B.A. Economics

Hsinchu, Taiwan | September 2017 - August 2021

WORK EXPERIENCE

TP-Link

Supply Chain Specialist | Düsseldorf, Germany | August 2026 - Current

- Track inventory KPIs (turnover rate, weeks of coverage, slow-moving items) and prepare inventory health reports for cross-functional stakeholders
- Conduct weekly WIP capacity analysis against air freight demand to proactively flag potential shortfalls and support timely escalation
- Review M+6 rolling forecast quantities based on sales trends and inventory positions to align production planning with actual demand
- Monitor shipment schedules against channel sell-in (SI) demand and backorder coverage to prioritize factory expediting actions and drive on-time delivery
- Execute weekly purchase orders to align supply with production and demand requirements

Xiaomi Technology

E-commerce Operations Specialist | Düsseldorf, Germany | February 2026 – July 2026

- Monitored inventory health and managed clearance for aging stock, achieving 60%+ clearance rate across 20+ models and reducing average DOS from 200+ to ~90 days

- Owned inventory planning and replenishment for 200+ SKUs across NL & BE markets, using M+3 forecasting and PSI planning to allocate stock by sales velocity, achieving ~90% forecast accuracy
- Drove merchandising and GTM collaboration across NPI, mature, and clearance phases, contributing to 14% (NL) and 47% (BE) YoY revenue growth on a €5M+ portfolio in H1
- Built weekly sales reports and semi-annual business reviews (sales and P&L) to deliver data-driven insights

Xiaomi Technology

Intern, E-commerce Operations | Düsseldorf, Germany | August 2025 - January 2026

Allianz Technology

Working student, Data Center and Cloud Services | Munich, Germany | September 2023 - October 2024

- Cleaned up 14.7% of 2K+ active cloud accounts by resolving missing/incorrect charges, recovering €4.1M in back-charged consumption and crediting back €3.3M
- Automated workflows using VBA and Power Query, reducing manual processing time by 50%+

UberEats

Intern, Enterprise Account Management | Taipei, Taiwan | September 2021 - February 2022

- Verified invoice issuance/void transactions to ensure financial and system consistency
- Supported B2B marketing campaigns for restaurant partners by maintaining merchant records and tracking campaign KPIs using Salesforce
